Quality Martial Arts

About Us

Our children's program is a principle based martial arts curriculum. What this means is that every class will include a lesson in character development along with the physical aspects of class. Matias Martial Arts provides a family atmosphere where all students regardless of age, gender or skill level can participate. We are not an ego driven school focusing on trophies and medals, but rather the rewards of an improved life that comes through discipline and training. We are proud to serve Napa, St. Helena and surrounding areas with quality martial arts.
